

## Role Title - Data Governance Analyst

### Location - Nottingham

Do you have experience in an IT Support role? Do you have an interest in data governance? We have a brand new opportunity in our evolving Information Security Risk function to join The Nottingham as a Data Governance Analyst.

You will be supporting our 1<sup>st</sup> line Information Security team working closely with the Information Security Risk Manager to implement and manage the Data Governance Framework. You will ensure the organisation applies effective principles of data governance to lead to improvement in data quality and appropriate management reporting.

If you have a good eye for detail, strong communication skills and you're looking to utilise your experience in a vibrant and progressive organisation, this could be the perfect development opportunity for you.

**The Nottingham, who are we? We are *Accountable, Relevant, Respectful, Open, we Work Together* and we *Support our Communities*, these values form the foundations of our culture.**

#### Your contribution:

- ✓ Maintaining understanding of data management processes and data usage across the organisation
- ✓ Consulting with the business to support control improvements
- ✓ Monitoring the ongoing operational effectiveness of key data management controls
- ✓ Maintaining and enhancing data processing inventories
- ✓ Supporting the 1<sup>st</sup> line Information Security team in improving the Information Management posture of the organisation.

#### Your expertise:

- ✓ Proven experience in a transferable IT support role
- ✓ Excellent problem solving skills
- ✓ Excellent verbal and written communication skills
- ✓ Strong analytical skills

Most importantly we are looking for an IT professional with a willingness to learn and develop within an evolving business.
